DESCRIPTION/OPTIONS: If your family needs a van, why not get the best van on the market at an affordable price? The 2016 Honda Odyssey is powered by a 3.5-liter V6 that produces 248 horsepower and 250 pound-feet of torque. Power is sent to the front wheels through a six-speed automatic transmission. EPA estimates are very good for a minivan at 22 mpg combined (19 city/28 highway), and we achieved close to 21 mpg in real-world mixed driving. The Odyssey earned five out of five stars for overall crash protection in government tests, with five stars for total frontal-impact safety and five stars for total side-impact safety. The Insurance Institute for Highway Safety gave it a top rating of "Good" for its performance in the frontal-offset tests (both small and moderate overlaps) and the side-impact and roof-strength tests. It also earned a top rating in the seat/head restraint (whiplash protection) test.
