DESCRIPTION/OPTIONS: This truck is priced under book value. The 2011 Toyota Tundra is a strong, tough truck. The 5.7L V8 provides lots of power, 381hp, and can tow up to 7800 lbs. The Tundra is designed to perform. It has a fully boxed frame under the engine, a closed "C" frame under the cabin and an open "C" frame under the bed. I spent time at the plant where they built the Tundra back in 2007. I have full confidence in this truck and you will too.
