**INTERIOR COLOR: BLACK**

**TRANSMISSION: AUTOMATIC**

**ENGINE: 5.7L V8 OHV 16V**

**MPG CITY: 13**

**DESCRIPTION/OPTIONS:** The 2011 Ram 1500 is a top pick in the full-size pickup truck segment thanks to its winning combination of strong performance, smooth ride and a classy cabin. When it was fully redesigned for 2009, the Ram 1500 sported a few features never before seen on a big pickup. First of all, the ground-breaking adoption (for the truck world, anyway) of a rear suspension that combined a solid axle and coil springs delivered a smoother, more carlike ride. This reliable truck is the SLT trim level and has 17-inch alloy wheels, chrome exterior trim, heated outside mirrors, carpet floor covering, cloth upholstery, cruise control, full power accessories, a power-sliding rear window, keyless entry, a trip computer and satellite radio. With its body-on-frame construction, the 2011 Ram 1500 exhibits the expected body jiggle over bumps. However, its rear coil-spring suspension virtually eliminates the harsh ride previously endemic to full-size trucks. The result is a much smoother, more sophisticated ride that sets the Ram apart from all other traditional pickups and offers best in class ride quality. The powerful 5.7L V8 produces 390hp and tows up to 10,250 pounds. This truck is 4-wheel drive. What are you waiting for? Contact us for a test drive.
